

THE WATER CYCLE

Match the labels with their descriptions

- | | |
|-------------------------|---|
| A. Evaporation | 1. Water from plants changes into water vapor and enters the air |
| B. Condensation | 2. Water from oceans, lakes, or rivers turns into water vapor due to the Sun's heat |
| C. Precipitation | 3. Water falls from clouds as rain, snow, sleet, or hail |
| D. Collection | 4. Water gathers in oceans, lakes, rivers, or underground after precipitation |
| E. Transpiration | 5. Water vapor cools and changes into tiny droplets, forming clouds |

ANSWERS

-
- A. **Evaporation**
- B. **Condensation**
- C. **Precipitation**
- D. **Collection**
- E. **Transpiration**
1. Water from plants changes into water vapor and enters the air
 2. Water from oceans, lakes, or rivers turns into water vapor due to the Sun's heat
 3. Water gathers in oceans, lakes, rivers, or underground after precipitation
 4. Water falls from clouds as rain, snow, sleet, or hail
 5. Water vapor cools and changes into tiny droplets, forming clouds
